Noon: Group Lunch

1:30pm-4:30pm: Workshop

**Infinite You** — “If you’re ready to dramatically improve your life, join us and discover your greater senses and abilities, and see how they can change your life. We can change the world by expanding our consciousness, living our greater potential, and living at a more advanced level. Discover what quantum physics and the spiritual masters reveal about who we are and what is truly possible. Developing your own advanced abilities — telepathy, intuition, sixth sense, using parallel universes, and more — can bring you more love, joy, compassion, freedom, trust, and fulfillment. I, and many others like me are living proof that these advanced senses are real and possible for all of us. If so many of us are experiencing this more expansive level of consciousness, you can too.”

6:00pm: Private Dinner followed by casual mini readings for the group.

### Sunday, June 7th

9am: Group Breakfast

11:00am-2:00pm Workshop:

**Quantum Leap** introductory — “We’ve heard about the transformation that is occurring. Now it’s time to quantum leap and actually live it! Join me, as we FULLY IMMERSE ourselves in expanded consciousness - experience the power of mind, parallel universes, telepathy, beyond time, and more!

We’ll absolutely be going for it – pulling out all the stops, stretching our thinking and opening up to new experiences. We’ll be moving beyond boundaries, expanding consciousness, and learning to actually experience our advanced abilities now!

For early arrivers, join us  
Friday at 6:30pm
